

Who says **managing Claims** can't be easy?

CMPro® can help your organization manage claims more efficiently and effectively.

CMPro® provides effective claims monitoring for healthcare organizations, allowing you to improve tracking and accounting for all types of claims. You'll save time collecting and managing claims information, and ensure that required actions don't "fall through the cracks". In addition, **CMPro®** enhances analysis and trending of claims data and facilitates reporting to insurance and regulatory bodies. Healthcare facilities and professionals need to guard against unexpected financial losses from casualty, worker's compensation and professional liability. **CMPro®** helps ensure that claims are managed efficiently and effectively with the following features:

- Specialized terminology and workflow
- Automated to-do's, alerts and reports
- E-mail links to popular systems
- Printable insurance & standard regulatory body forms
- Trending and management reporting tools
- Interfaces to popular medical information systems
- Web-based benchmarking capabilities
- Links incident and complaint data
